

cross-border student exchange program

Interreg

Co-funded by
the European Union

South Baltic

What?

A week long exchange program based on the AquaLoop project pilots, hands on experience, laboratory work, study trip, cross-border cooperation and networking.

For whom?

Aquaculture (and related majors: biology, marine biology, etc.) undergraduate and graduate students from the AquaLoop project partner universities: University of Rostock, University of Gdańsk, and Klaipeda University.

Why?

To get familiar with AquaLoop pilots, circular economy practices in aquaculture, partner institutions, and students from Germany, Poland and Lithuania.

When?

January – March 2025

Where?

University of Rostock (DE)
University of Gdańsk (PL)
Klaipeda University (LT)

Are you enthusiastic about circular economy & aquaculture,
and you study at one of the AquaLoop project universities?

Then, the program is for you!
